General Teaching Method Overview: Video lecture, Quiz

Duration: Course is self-paced and is expected to take approximately 1 ½ hours to complete.

Completion Requirements: Complete the eLearning track, obtain passing quiz score of 80% or higher, and completion of course evaluation.

CEU Credits: Approved by Michigan APTA For 1.5 CEUs. CEU Locker #150777

Healthcare providers generally practice in medical facilities or private practice, yet more providers are working in industrial settings. This 1.5 hour self-paced program helps prepare providers to safely work in industry – with a focus on workplace stakeholders that are involved in safety, injury reporting, personal safety, hazard/risk analysis, environmental safety and implementing safety in practice.

Learning Objectives:

At the end of the training, participants will be able to –

1. Analyze safety data for onsite program planning, using site specific information from OSHA 300/301 logs.
2. Develop a risk control plan, using root cause analysis and risk prioritization.
3. Identify how onsite providers interact with 3 workplace safety stakeholders regarding prevention/management goals based on case information.
4. Audit personal behavior related to best practices for workplace safety using a competency checklist.

Outline and Agenda:

| Time (approx.) | Agenda Item |
|-----------------------|--|
| 5 min | Introduction, Orientation, Objectives |
| 15 min | Why safety in the workplace? <ul style="list-style-type: none"> • Definitions • Regulations • Stakeholders |
